ord as to the country to stop shipment. Our tables published a week ago show that we have now in the city at least 4.300,000 bushels of grain. The amount is probably greater by the receipts of last week. Of this we have 1,650,000 bushels of wheat and 1,600. 16 00 000 bushels of corn. Taking the amount in store, by 1 13 "ciphering" a few moments, some very curious results will be reached. Allowing sixty bushels to the load 12 00 nearly double what the farmer's team hauls, and it would 150 00 take 71.666 teams to raw it; and if each team occupy twenty feet, it would take 365 miles of road to give them standing room. This is exactly the distance between Chicago and Cairo. And, again, it will require 287 vessels and propellers to clear out our warehouses if each one take a load of 15,000 bushels. And yet all we have in store is not a tithe of what our farmers will send forward during the season, it satisfactory prices are realized.

We are not advised of the statistics of this article, but suppose that 50,000 barrels, at a valuation of \$300,000, are annually sent out of the State. This is a mere supposition, it may be greater or much less, but we hardly hazard much in saying that an equal or greater amount of flour is imported from other States, than we export. We hope the day is not distant, when our millers will wipe this stain from the Old North State.

Frof. O. J. WOOD & Co.: Gents :- The letter I wrote you in 1-56 concerning your valuable Hair Restorative, an has given rise to numerous enquiries touching the facts in can and do answer invariably yes. My hair is even bette kers, and the only cause why it is not generally true, it that the substance is washed off by frequent ablution of the face, when if care were used by wiping the face in close connection with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of letters from all parts of New England asking me if my ha still continued to be good; as there is so much fraud in the manufacture and sale of various compounds as well as this, it has, no doubt been basely imitated and been used, not only without any good effect, but to absolute injury. I have months, and yet my hair is as good as ever, and hundred have examined it with surprise, as I am now 61 years old and not a gray hair in my head or on my face; and to prove mer, for which I am very grateful. I gave it to my friends and thereby induced them to try it, many were skeptics until after trial, and then purchased and used it with any by many, I fear, without authority from you. A pure art cle will insure success, and I believe where good effects not follow, the failure is caused by the impure article, which curses the inventor of the good. I deem it my duty, at heretofore, to keep you apprised of the continued effect of my hair, as I assure all who enquire of me my unshaker opinion of its valuable results. I remain, dear sir, yours

AARON'S RUN, Ky., Nov. 30, 1858. Prof. U. J. Woon: Dear Sir :- I would certainly be doing you a great injustice not to make known to the world, the wonderful, as well as the unexpected result I have experienced from using one bottle of your Hair Restorative. A ter using every kind of Restorative extant, but without suc cess, and finding my head nearly destitute of hair. I was nally induced to try a bottle of your Restorative. Now candor and justice compel me to announce to whoever me read this, that I now possess a new and beautiful growth hair, which I pronounce richer and handsomer than the original was. I will therefore take occasion to recommend this invaluable remedy to ALL who may feel the necessity Respectfully yours,
